

# Trust your hearing to **SOUND GUARD™**

Non-allergenic ear plugs manufactured from  
polyvinyl chloride foam

NSN# 6515-00-137-6345 two-color disposable PVC ear plugs

- **NRR 19.1 dB (per ANSI S12.6-1997). Excellent sound attenuation at an affordable price!**
- **Two-color design ensures proper insertion depth:**
  1. Roll plug until thin and tightly compressed.
  2. Insert **orange** end of rolled plug quickly into ear. For easier insertion, pull ear outward and upward.
  3. Hold plug in place with fingertip until fully expanded.
  4. Plug is inserted correctly when only the **green** portion of the plug is visible. If **orange** is visible, reinsert the plug.
- **Expands to the size and shape of the ear canal for a comfortable and effective fit.**
- **Water-resistant material reduces absorption of contaminants.**
- **Meets ANSI 12.6-1984, ANSI 12.6-1997 and government specifications.**
- **Complies with OSHA regulations.**
- **200 pairs of individually boxed ear plugs per dispenser box; 10 boxes/case; 15 cases/skid.**

**Exceeds Government Specification CID # A-A-54878a**

Test Method "B" of ANSI S12.6-1997

**NRR (SF) 19.1 db**

Frequency in Hertz	125	250	500	1000	2000	4000	8000
